FLORAL GEMS. 1894

Mc GREGOR BROS.

SPRINGFIELD, OHIO

Geranium, "The Wonder."

This new Geranium, without doubt the finest that has ever been offered, came from France in a lot of fine sorts, and is supposed to be a sport from the scarlet geranium, *Athelete*.

It being so intense in color, such a wonderful bloomer and strong grower that it was kept separate and styled "*The Wonder*," from the fact that every one who saw it, pronounced it wonderful.

The artists has copied exactly in size, an ordinary truss.

The flowers are the most intense, dazzling scarlet, and are borne in trusses of enormous size, measuring from 18 to 20 inches in circumference with single florets measuring 7 inches in circumference. The foliage is fine, and rich in color, and in strong contrast to the brilliant scarlet flowers.

As a pot plant, or a bedding geranium, it has no equal.

Price, 25 cents each. \$2.50 per dozen.

TWO BEAUTIFUL NEW MOSS ROSES

AS SHOWN IN COLORS ON THE FRONT OF THIS CATALOGUE.

MOSS ROSES are admired for the beautiful moss covering of the buds. The Moss Rose is a strong, vigorous grower, perfectly hardy, and therefore justly esteemed as very desirable for outdoor culture in open ground. Most varieties bloom but once in the season, and usually not the first year, but the flowers and buds are very large and handsome, remain in bloom a long time, and are highly prized wherever beautiful Roses are known. They like rich ground and are much improved in beauty and fragrance by liberal manuring and good cultivation.

THESE TWO VARIETIES WE CONSIDER THE BEST OF THIS CLASS OF ROSES.

PAUL FONTAINE. This beautiful Moss Rose of a deep crimson is the best of its color among Mosses; being large and double, a strong, vigorous grower, and perfectly hardy, is a very free bloomer, remaining in flower a long time. Small plants 25 cents each; large two year old plants, 40 cents each.

COUNTRESS DE MURINAIS The finest of White Moss Roses. The buds are elegantly mossed, flowers large, full and fragrant. A beautiful cemetery rose, as it requires no further attention after being planted; it is perfectly hardy. We place this elegant Moss Rose at this low price. Small plants, 25 cents each; large two year old plants, 40 cents each; or one of each in the small size for 40 cents, and one of each in the large size for 75 cents.

THE SPLENDID NEW TEA ROSE

Christine de Noue,

AS SHOWN IN COLORS ON THE BACK OF THIS BOOK.

Christine de Noue This beautiful new red Tea is a very charming Rose and promises to be one of the best of recent productions. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized graceful bush with bright deep green foliage; a constant and very free bloomer; the flowers are well borne up on strong stems, and are unusually large and handsome. Price, 20 cents each; large two year old plants for immediate bloom, 40 cents.

READ THIS PAGE CAREFULLY**BEFORE ORDERING.**

IN PRESENTING to you, our patrons and friends, this, our new Spring Catalogue, we hope it may meet with the same cordial reception as those previously sent. We have endeavored to make it new and interesting. The handsome many colored cover and increased size of the book indicate that we are steadily increasing our facilities for supplying our customers with the most beautiful, most novel, and most reliable plants that can be obtained. We aim to offer only the best varieties. Everything is conducted under the personal supervision of the proprietors, making it less liable for mistakes to occur. However, should any error be made in filling orders this Spring, our customers may feel assured that it will be entirely unintentional, and when informed of the fact we will promptly rectify it, and make everything satisfactory if it lies in our power to do so. Please keep a copy of your order for comparison.

ORDERS LOST OR STOLEN'

Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

USE OUR ORDER SHEET, FILLING ALL THE BLANKS CAREFULLY.

In making out your order please use the convenient Order Sheet which accompanies each Catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

PLANTS BY EXPRESS.

We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as in the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free,) having the tops exposed. Plants packed in this manner will carry nicely for a great distance, and keep for a week or ten days in a fresh condition. Purchaser pays charges.

NEW LOW EXPRESS RATES.

We call your attention to the new low express rate, which is a reduction of 20% from the regular merchandise rate, at which plants have been expressed heretofore, and also that packages of less than 100 lbs. are billed at 100 lb. rates.

Remember, Plants can now be shipped at a lower rate than any other class of merchandise.

PLANTS BY MAIL.

When plants are ordered by mail, we prepay postage, delivering the plants free of all expense to any postoffice in the United States.

Orders for less than One Dollar will not be filled unless **ten cents additional** to the price of the plants be sent to pay postage. It is quite as much trouble to handle, and requires nearly as much postage, to mail a fifty cent order as it does for one of two or three dollars' worth of plants.

OUR TERMS ARE CASH WITH THE ORDER.

No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

HOW TO REMIT.

POSTOFFICE ORDERS.—The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can be easily obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 8 cents for \$10.00 and under. The new postal note has a cheaper fee, but if lost or stolen no duplicate can be obtained. We therefore do not advise their use, or, if used, it must be at the sender's risk.

EXPRESS MONEY ORDERS.—If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

BANK DRAFT.—These should be drawn on New York City, and made payable to the order of McGregor Brothers.

We will be responsible for money sent by any of the above methods.

LOOSE MONEY OR POSTAL NOTES enclosed in a letter are at the risk of the sender.

INDIVIDUAL CHECKS cannot be received in payment for plants, as it costs us 25 cents to collect them.

POSTAGE STAMPS.—These can be sent for fractional parts of one dollar, or where small notes cannot be had. When stamps are sent get 5-cent or 10-cent, if possible, as we use more of them than any other.

MADAME CAROLINE TESTOUT.

The New Hybrid Tea,**Madame Caroline Testout.**

Probably no Rose stands higher in public estimation to-day than La France, and when we say that this elegant new Rose is a close counterpart of La France we have said enough to insure its being planted by vast numbers of people. We don't know that it is any better than La France, but it is decidedly deeper and more brilliant in color, and if it is as good in other ways it is a wonderful Rose. It seems equally as healthy, and is certainly more vigorous in growth, which is a great recommendation. The petals are large, and of the elegant La France form; exquisitely edged and bordered with clear silver rose. Both flowers and buds are extra large and of very elegant form; the color is brilliant satiny-rose, deepening at center to clear red. It is of excellent substance, keeps its color well, and its splendid, large, globular flowers impress everyone with a sense of its superiority and great beauty. **Price, 20 cents each. Large two year old plants, 40 cents.**

New Ever-Blooming Rose, CROWN PRINCESS VICTORIA, or WHITE MALMAISON.

It is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure, waxy snow-white, sometimes has a lemon tint, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Resembles that grand old Rose "Malmaison" in shape and fullness. The best white Rose we have to offer. **Price, 20 cents each. Large two year old plants, 40 cents each.**

New Ever-Blooming Rose, STAR OF GOLD.

(Etoile d'Or.) This elegant new Rose is certainly a great acquisition. Full, round flowers, of the largest size, perfectly double to the center, oftentimes comes in immense clusters, blooms quickly and profusely, and besides being exceedingly beautiful is entirely distinct from all others. The color is a deep golden-yellow, with rich citron center. If you desire a large, rich, deep yellow Rose, try it. **Price, 20 cents each. Large two year old plants, 40 cents each.**

This Set of Three of the Newest Roses for 50 cents.

A SET OF Seven Superb New Roses FOR \$1.00.

NEW HYBRID TEA,

Triumph de Pernet Pere.

Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translated would read, "Triumph of Father Pernet,") and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 20 cents each. Large Plants, 35 cents.

NEW TEA ROSE, GOLDEN GATE.

This magnificent Rose is a cross between the old greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both is vastly more beautiful than either. It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses, of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it. Price, 20 cents each. Large Plants, 35 cents.

New Tea Rose, Miss Wenn.

This charming variety is noticed at once for its exquisite color, which seems entirely distinct from almost all other Roses of our acquaintance. We call it a clear coral pink, a most novel and distinct shade of color very difficult to describe. The French call it china pink. It is certainly a very beautiful color, and the rose will doubtless be greatly admired, as it is large, very double and full and exquisitely Tea scented. Price, 15 cents each. Large Plants, 25 cents.

New Tea Rose, Souv. de Clairvaux.

The flowers are extra large, having a deep, full form, well built up; the buds, too, are large, long and pointed, altogether giving an idea of luxuriant beauty that but few Roses possess. The color is bright, pinkish rose, very rich and handsome, and shading darker or lighter, according to season and temperature; when fully open the base of center is seen to be finely shaded apricot yellow. Price, 15 cents. Large Plants, 25 cents.

New Tea Rose, Fursten Bismarck.

A very variable-colored Rose, changing from China Rose color to cherry red, the whole suffused with lemon. A strong, vigorous, new variety from Germany. This is a very promising variety, one of the best new Roses. Price, 15 cents. Large Plants, 25 cents.

MADAME ELI LAMBERT.

New Tea Rose, Madame Eli Lambert.

A beautiful new Tea Rose. The colors are not particularly remarkable—scarcely unusual—and yet we have no hesitation in recommending it as one of the most beautiful and valuable Roses of which we have any knowledge. The flowers are extra large, fine, globular form, very full and well built up. The French description says it is the absolute perfection of form. The color is somewhat in the way of Madame de Watteville, but deeper; rich creamy-white, faintly tinted with pale golden-yellow, and exquisitely bordered and shaded with soft, rosy-flesh, exceedingly beautiful and very sweet, petals large and of good substance, constant and profuse bloomer, strong, vigorous and healthy grower—in short, a magnificent Rose in every way. Price, 20 cents each. Large Plants, 35 cents.

New Climbing Rose, Waltham Queen.

This splendid new ever-blooming Climbing Rose is introduced from England, where it has given great satisfaction. It is a valuable acquisition, particularly for the South and Pacific Coast, and though not entirely hardy in the North, it will probably do well in many situations in the Middle States. It is a strong grower and continuous bloomer. Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest profusion its beautiful, rich, red flowers of magnificent size. Price, 15 cents. Large Plants, 25 cents.

KAISERIN AUGUSTA VICTORIA.

THE ROYAL NEW WHITE TEA ROSE, KAISERIN AUGUSTA VICTORIA.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have White Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure snowy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price 20 cents each; large two year plants 40 cents.

New Bourbon Rose, Mrs. George Paul.—This plant has "the vigorous habit and handsome foliage of the seed parent, Mme. Isaac Pereire, as well as its thoroughly perpetual character." * * In addition, it produces flowers of great beauty and exceptional distinctness. The magnificent guard petals, for smoothness of contour, size and substance, are unsurpassed, while the pearly-white color, sometimes suffused with peach, is very pleasing.—LONDON GARDENER. The finest Bourbon offered in many years. Give it a trial. Price, 20 cents; large two year old plants, 40 cents each.

New Golden-Yellow Tea Rose, Media.

We place this elegant Rose first in the list of new Roses for several reasons. In color it is a deep golden-yellow. There is no denying the fact that yellow and white Roses are admired by everyone, but the yellow has the more admirers of the two. The size and shape is all that could be desired, full, round flowers of the largest size, perfectly double to the center, and the fragrance is elegant. The growth is vigorous, while the foliage is of that beautiful tint of green that goes so well with yellow. If you have heretofore been disappointed in getting a yellow Rose that pleased you in every particular, don't fail to try this one, as it will not only win your favor, but retain it. Price, 15 cents each; large plants, 25 cents.

New Rose, Henry M. Stanley.

This grand new ever-blooming Rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer, and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff rose. The flowers are of good substance, extra large, finely formed, and very full and fragrant. Price, 15 cents each; large plants, 25 cents.

These Four Beautiful New Roses for 50 Cents.

New Crimson Tea Rose, MARION DINGEE.

This grand new Rose was raised from seed of the beautiful Countess de Casserta, crossed with Dutchess of Edinburgh. Marion Dingee promises to be of extraordinary value. It is a strong, vigorous grower, making a handsome, graceful bush, with large, thick deep green leaves. The flowers are large, beautifully cup-shaped, moderately full, and borne in wonderful profusion all through the growing season. In fact, we scarcely know of any other Rose that will produce so many perfect flowers in a given time, and whether in open ground or under glass it is a most constant and profuse bloomer. The flowers are borne nearly upright on long, straight stems, and are of excellent substance, having thick, leathery petals, holding their form and color a long time. The color is perhaps its most remarkable feature. It is a deep, brilliant crimson, one of the darkest, if not the very darkest, and richest colored Tea Rose in existence. **Price, 20 cents. Large plants, 35 cents.**

New Climbing Rose, Reine Olga De Wurtemberg.

A splendid Rose, and should be grown where the Marechal Niel succeeds. This variety, as grown in the south of France, is simply indescribable. The people in the South would do well to employ this beautiful sort for covering verandas and trellises. Color, a rosy-carmine, suffused with yellow. **Price, 15 cents. Large plants, 25 cents.**

New Tea Rose,**THE QUEEN.**

A most charming Tea Rose. The offspring of that fine old Rose, Souvenir d'un Amie, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses. **Price, 15 cents each. Large plants, 25 cents.**

New Tea Rose, The GEM,**Or, "THE FAIR UNKNOWN."**

The Rose is identical with Marie Van Houtte, except that it is claimed to be twice the size. Of a fine, faultless straw-yellow color, with the outer petals washed and outlined with a bright rosy crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely, and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. **Price, 15 cents each; large plants, 25 cents.**

**PEARL OF THE GARDEN.****THE BEAUTIFUL • •****PEARL OF THE GARDEN.***(Perle des Jardins.)*

The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but is a perfect and popular Rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equalled in beauty by the open Rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark; every branch being tipped with the dark reddish-maroon of the young shoots and bearing its buds high above the leaves. **Price, 15 cents each; large plants 25 cents.**

New Tea Rose, MAD. PIERRE GUILLLOT.

Moderately vigorous in growth. Flowers large and nice shape. Color orange yellow, bordered and lined with rosy-carmine, reverse of the petals, yellowish-white. A magnificent variety, and the prettiest Rose of the set. **Price, 15 cents each; large plants 25 cents each.**

COUNTESS EVA STARHEMBERG.

New Tea Rose, Countess Eva Starhemberg.—The bud is long in form, opening into a fine double flower of great beauty and heavy texture. Color Creamy-yellow, shading to ochre at the center, borders of the petals touched with rose. Received gold medal and numerous certificates of merit. Of fine, free-growing habit. We are pleased with this Rose. Price, 20 cents each; large two year old plants, 40 cents each.

NEW TEA ROSE, CAPTAIN LEFORT.

Color of flower rosy-purple, reverse of petals china rose. This variety is a cross between Socrates and Catherine Mermet. Long buds on stiff stems. A variety of great merit. Price, 15 cents each; large plants, 25 cents each.

NEW TEA ROSE, MADAME MARTHA DU BOURG.

One of the most beautiful of the new Roses. Habit, and foliage are beautiful, denoting a ready grower, the flower is large, perfectly double, and of beautiful form; the color is creamy-white, touched with carmine or pale heliotrope on the edges; texture heavy. New Tea Rose, J. B. Varone.

A fine grower, flowers large and very double, with high center and long buds. Color a soft china roses, changing to a bright, deep carmine of easy shading; and extra good Rose, and very sweet. Much superior to Luciole, which it resembles, but of better habit and growth, and much freer in bloom. Price, 15 cents each; large plants, 25 cents each.

New Hybrid Tea Rose, Mrs. James Wilson.

Similar in shape to Catherine Mermet; pale yellow, tipped with rose pink, a strong and vigorous grower, and will prove to be valuable. All who know that old favorite, Catherine Mermet, will be pleased with this Rose. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Gustave Nadaud.

A free branching grower, with large, double flowers. The outside petals are large and rounded, giving it an exquisite cup shape. Color vermilion, with clear touches of carmine lake and soft pink center. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Ernest Metz.

A beautiful new Tea. Robust in growth, but dwarf in habit. Flower very large when open, long, pointed buds, produced on long stems. Color rosy-carmine, with the color heightened in the center. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, C. Nabonnand.

Tea Rose, Madame Welch.

An extra fine variety, very large, double, and of beautiful rounded form, a soft, pale yellow, sometimes cream, with short inner petals of glowing orange and copper. Not to be forgotten if once seen. Charming. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Mad. de Watteville.

Color a beautiful creamy-yellow, tinged with large shell-like petals having a bright crimson border. There is no other Rose like it in color. This is the Tulip Rose of Europe, so-called from its feathery shading of petals. Price, 10 cents each; large plants, 25 cents each.

A VASE OF VICOMTESSE DE WAUTIER.

NEW TEA ROSE,

COUNTRESS ANNA THUN.

A strong, bushy grower, with flowers freely produced on short, stiff stems; shows the characteristics of a good bedder. It is of immense size, and of the most lovely and perfect form imaginable. Color a beautiful citron yellow, with coppery and peach center, shading to orange-salmon and silvery-pink, the colors blending nicely. Price, 15 cents each; large two year old plants, 40 cents each.

NEW TEA ROSE,

Princess Sagan.

A strong-growing Rose, with small, closely-set foliage and medium-sized flowers of the brightest scarlet and of velvety texture. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. It is as free in bloom as Bon Silene and unmatched in color, which fully atones for its lack of size. One of our customers in California says she is kept busy by people asking what Rose this is. Price, 15 cents each; large two year old plants, 30 cents each.

New Tea Rose, Viscomtesse de Wautier.

Rosy yellow upon the exterior of the petals, rosy white in the interior. The center is a dark rose, and this color is often lined into the lighter shades above, producing a charming effect. A grand Rose. Price, 15 cents each; large two year old plants, 30 cents each.

New Tea Rose, Jeanne Guillaumez.

THE METEOR.

New Hybrid Tea Rose,

THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flower of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 15 cents each; large two year old plants, 30 cents each.

New Hybrid Tea Rose,

WHITE LA FRANCE.

(Augustine Guinnoiseau.)

Here we have a beauty, indeed, one we can recommend to all, whether for out-door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly white, sometimes tinted with fawn. Thousands of persons who have visited our grounds last Summer have been startled with the beauty of this Rose, one and all exclaiming "What beautiful Rose is this?" We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents each; large two year old plants, 25 cents.

New Tea Rose, COMTESSE FRIGNEUSE.

In color charming; in freedom of bloom second to none. The buds are long and pointed, not unlike Niphotos in form, and of good size. The color is a deep golden-yellow, with softer shade inside of petal. As a yellow Rose this takes rank next to Marechal Niel. Price, 15 cents each; large plants, 25 cents.

THE RARE BOURBON ROSE,

RED MALMAISON.

(SOUVENIR DE LA MALMAISON A FLEURS ROUGES.) This beautiful Rose is identical with Souvenir de la Malmaison except in color, which is a clear, deep, rich scarlet. A grand and handsome Rose in every respect. Price, 15 cents each; large plants, 30 cents each.

New Tea Rose, Mme. Scipion Cochet.

A charmingly beautiful Tea Rose of more than usual merit. Color primrose yellow, with rose shadings. Deliciously sweet scented, and very unique in the size and shape of its buds. As this belongs to Countess de la Barthe section its freedom of bloom is at once settled. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Grace Darling.

A large, full flower, handsomest when perfectly open. Color the richest shade of carmine-pink; a uniform and decided color, but never quite obscuring the ground of beautiful yellow upon which it rests. Price, 15 cents each; large plants, 30 cents each.

Tea Rose, Madame Etienne.

Rosy pink on edge of petals, shading to light rose; center sometimes a flesh white; outer petals very large and nicely arranged with smaller inner petals; large buds of fine form, and very fragrant. A most persistent bloomer. Price, 15 cents each; large plants, 25 cents.

NEW TEA ROSE, SOUV. de VICTOR HUGO.

A bright China Rose, with copper-yellow center, ends of petals suffused with cormine. A charmingly beautiful combination of coloring, and each color blends nicely with the other. The variety ranks with the best, and is a Rose of decided merit. The relationship to Duchesse de Brabant assures us of a free bloomer, and in size and length of bud equal to the best Teas. Of decided merit. Price, 15 cents each; large two year old plants, 30 cents each.

THE GRAND OLD ROSE, MALMAISON.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Price 15 cents each; large plants, 30 cents each.

NEW TEA ROSE, VALLEE de CHAMOUNIX.

The coloring of this Rose is simply exquisite. The base and back of the petals are a bright yellow, the center highly colored with glowing copper and rose, every tint clear and bright. There is never a dissenting voice as to its beauty. Price, 15 cents each; large plants, 30 cents each.

NEW TEA ROSE, SUNSET.

It is a "sport" from that grand variety *Perle des Jardins*, which it strongly resembles performed. The color is a remarkable shade of rich golden amber, elegantly tinged and shaded with dark ruddy copper, intensely beautiful, and resembling in color a splendid "afterglow." Sunset is a constant and profuse bloomer, and, taken altogether, is one of the finest Roses recently introduced. Price, 20 cents each; large plants, 40 cts. each.

TEA ROSE, DR. GRILL.

A charming new Tea. Coppery-yellow, with fawny rose reflex. An entirely new color, and of great brilliance. The outer petals are large, round and shell-

shaped and enclose a mass of shorter petals, which are of a very brilliant color. A grand garden rose. Price, 15 cents each; large plants, 30 cents each.

NEW TEA ROSE, THE WABAN.

A most valuable Rose. It can be described as a red *Mermet*. It is a sport from *Catherine Mermet*, and identical with it except in color, which is a rich, deep, bright pink, retaining its color in the darkest cloudy weather. It has received the silver medal of the Massachusetts Horticultural Society and a certificate of merit from the Pennsylvania Horticultural Society, where it has been exhibited as an extra fine new Rose. Price, 15 cents each; large plants, 25 cents each.

SOUVENIR DE LADY ASHBURTON.

The New Tea Rose, SOUVENIR de LADY ASHBURTON.

Originated by one of the famous Rose growers of Paris, France, and named in honor of a noted English lady, the wife of Lord Ashburton, one of the most noted English diplomats of the present time. The flowers of this superb Rose are exceedingly large and full, and a round, handsome form; the color is somewhat variable, but always very beautiful, and can perhaps be best described as a fine shade of rich coppery red, delicately suffused with pale orange yellow; reverse of petals fine rosy fawn color. It is highly scented with the true Tea Rose odor, heightened or intensified, as the French description says, with the delicate perfume of peaches and apricots. Price, 20 cents each; large two year old plants, 40 cents each.

NEW TEA ROSE, SAPPHO.

Buds fawn color, suffused with rose, the opening flowers shaded yellow and tawny buff, center deep, bright yellow, large, full and globular. It produces blooms with extraordinary profusion, even for a Tea Rose. The petals large and of much substance. A splendid Rose to keep after being cut. This we commend as being one of the prettiest and sweetest Roses ever brought before the public. Price, 15 cents each; large plants, 30 cents each.

New Tea Rose, Snow Flake.

It is a lovely new white Tea; the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., of Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 185 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 15 cents each; large plants, 25 cents each.

Beauty of Stapleford.

Flowers very large and perfect form, deliciously scented; Tea fragrance. Color clear bright pink, shading to a bright rosy crimson. Makes large and beautiful buds, and a constant and profuse bloomer. Price, 20 cents each; large two year old plants, 35 cents each.

New Tea Rose, Ella May.

This is a sport from that grand old variety, "Sunset," which it strongly resembles. The flowers are large, fine, full form, very double and deliciously perfumed. The color is a remarkable shade of rich golden amber. It is more highly colored than its parent. This Rose is sure to please all. Price, 20 cents each; large plants, 40 cents each.

PIERRE GUILLOT.

NEW HYBRID TEA ROSE, PIERRE GUILLOT.

One of the finest and most valuable in the whole list. Bright, dazzling crimson, passing to brilliant carmine. Flowers large, very double and full, and highly scented. A healthy and vigorous grower, and a constant bloomer from June until frost. The outer petals are broad, round and decidedly recurved, showing the short, closely-set inner petals. Among the few good ever-bloomers this ranks very near the front, for it is double, without a tinge of disagreeable shade, and always in bloom. We have a very large stock of nice plants. Price, 25 cents each; large two year old plants, 50 cents each.

New Tea Rose, Mademoiselle Franciska Kruger.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shadings of deep coppery-yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Marquis de Viviers.

A beautiful new Tea Rose, blooming without cessation and growing with great freedom. Long in bud and broad when open. A bright carmine at the edge of the petals, soon graduating into light rose and becoming lost in the pale yellow of the center. A bright and very showy Rose of the Brabant section, but very highly colored. Price, 15 cents each; large plants, 25 cents each.

THIS PAGE OF BEAUTIFUL ROSES FOR \$1.00; LARGE SIZE FOR \$2.00.

CLOTHILDE SOUPERT.

**The Superb New Ever-Blooming Rose,
Clothilde Soupert.**

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with the style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays and the color blends from a soft shell pink to a pure satiny white. Roses with both of these colors are produced on the same plant at the same time. This Rose is destined to take high rank as a pot rose for bedding purposes, and with the increased taste for Roses in clustered sprays will be profitable as a cut-flower. No other Rose approaches it in flowering qualities, not even the grand old Hermosa. Price, 15 cents each; large plants, 25 cents each.

New Tea Rose, Lucile.

A new French Tea Rose of much more than ordinary merit, very bright carmine rose, tinted and shaded with saffron, the base of the petals being copper yellow, with reverse a rosy bronze, large, pointed, very double and very sweet-scented; flower stem roughened like a Moss Rose, the coloring is entirely new and very brilliant. The open Rose reminds one of a ripe red peach. Certainly no Rose equals this in its delightful coloring and size of buds. Price, 20 cents each; large two year old plants, 40 cents each.

This Lovely Set of Roses for 60 cents:
Large Size, \$1.00.

**New Hybrid Tea Rose,
Madame Schwallier.**

Like Puritan this Rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright rosy flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 15 cents each; large two year old plants, 30 cents each.

**New Tea Rose, Louisa
de la Rive.**

This elegant new Rose has been thoroughly tested and has given great satisfaction; it is a robust grower and a constant and a profuse bloomer; the color is soft rosy blush, delicately shaded with salmon and fawn; the flowers are quite large, very full and delightfully sweet. Price, 15 cents each; large plants, 25 cents each.

**The Grand Red Tea
Rose, Papa Gontier.**

A red Tea, of fine crimson shade and silken texture (as distinct from velvety texture.) The bud is of fine size and graceful form. Extremely free, both in growth and bloom. Very long and beautifully-leaved stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. Price, 15 cents each; large plants, 25 cents.

LUCIOLE.

The Great New Yellow Tea Rose,
MAD. PERNET DUCHERE.

NEW ROSE.

Madame Pernet Duchere.

A charming new Tea Rose, canary yellow, suffused with copper, long, pointed buds on every shoot. Is a wonderful bud producer. Inclined to come somewhat single during hot weather, and when in this way is very attractive, being larger and showing their stamens more distinctly. Much finer than the famous Rugosa Roses. It is growing rapidly in favor in Europe. No other Rose compares with it in delicacy of tint. Price, 20 cents; large two year old plants, 40 cts.

TWO NEW CLIMBING ROSES.

New Ever-Blooming Tea Rose, CLIMBING PERLE DES JARDINS.

A sport from the well known favorite, Perle des Jardins, and a Rose that will be of permanent value, either for growing in-doors or in the open ground. The habit of growth is very vigorous, young plants often sending up shoots six to eight feet high, with rich, glossy foliage and bright red stems. The flowers are produced in wonderful profusion, and are deep canary yellow; the buds and flowers are much larger than the parent variety. Price, 20 cents.

New Ever-Blooming Rose, Climbing Niphetos

There has never been but one point that held that glorious old Rose, Niphetos, in the background, and that was the serious defect of its being a weak grower, and this defect is now remedied. We have a vigorous climbing growth, coupled with all the charms of Niphetos. It has always held the lead as being the most elegant of white Roses. The buds on well-grown specimens measure four inches in length, and are produced in the greatest profusion. It is positively startling in size and purity. Price, 20 cents.

A PAGE OF LA FRANCE ROSES.

The Four Beautiful and Distinct Varieties
for 50 Cts. Large Two Year Size, \$1.

WHITE LA FRANCE, (AUGUSTINE GUINNOISEAU.)

Here we have a beauty indeed, one we can recommend to all, whether for out-door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents: large size, 30 cents.

STRIPED LA FRANCE

Madame Angélique
Veyssel.

Everybody knows the beautiful La France — a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it except in two points. First, it is freer in bloom than the parent; second, it is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin pink ground. This Rose has received several gold medals and special certificates of merit, as shown before the Rose societies of this country as well as Europe. Price, 15 cents: large size, 30 cts.

THE RED LA FRANCE (OR DUCHESS OR ALBANY.)

PINK LA FRANCE.

We have always given this the first place, the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree. Another Rose of which one cannot have too many. Price, 15 cents: large size, 30 cents.

THE RED LA FRANCE.

(Or Duchess of Albany.)

We have no hesitancy whatever in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: a more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up well against either light or dark dress goods to a charming advantage. The growth of the plant is exceedingly vigorous, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion, the plant being covered with handsome flowers. You will make no mistake to plant this Rose largely. Price, 15 cts.: large size, 30 cts.

"RAINBOW."

CALIFORNIA'S NEW STRIPED ROSE, "RAINBOW."

This new Rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet, and of great depth and substance. Price, 15 cents each; large plants, 30 cents each.

New Hybrid Tea Rose, Viscountess Folkestone,

No Rose in our Catalogue has grown in popularity during the past year like Folkestone. It is unsurpassed among light colored varieties. It is graceful to the last degree, with strong, heavy foliage. The flower is delicately tinted flesh, almost white, and lustrous as satin. When full blown it is like a white Paeony, but without a suggestion of stiffness. We have measured flowers of this variety six to eight inches in diameter. It is sweet-scented, and altogether one of the loveliest Roses. Price, 15 cents each; large plants, 30 cents each.

New Tea Rose, Princes Hohenzollern.

A very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep, satiny-red, with lighter center. Price, 15 cents each; large plants, 25 cents each.

THE "RAINBOW" SET OF SIX LOVELY ROSES FOR 75 CENTS.

NEW TEA ROSE, • • • SOUVENIR OF WOOTTON.

An American variety of great promise, with the following good qualities: (1) Color velvety-red, equal to Jacqueminot; (2) perfume which cannot be excelled; (3) continuous flowering qualities; (4) the most prolific bloomer in existence, every shoot containing a flower bud; (5) habit exceedingly vigorous, and in foliage quite equal to the American Beauty; (6) it never makes imperfect buds, and dark weather but deepens the color, giving it a richer shade of crimson; (7) it is a full double Rose, and is good in bud, half open, or fully expanded. Full open flowers frequently are six inches in diameter. Price, 20 cents each; large plants, 35 cents each.

MADAME ISAAC PERIERE.

One of the best Roses we have. Very hardy, and a constant bloomer. It has large, beautiful foliage, and is a vigorous grower. The flowers are a beautiful carmine, and bloom throughout the season. Price, 15 cents each; large plants, 25 cents each.

NEW TEA ROSE, PROF. CANIVAT.

Vigorous in growth and free in bloom. Flower double, and of good form, of the color of Souvenir Therese Levet. Price, 15 cents each; large plants, 25 cents each.

THE THREE HERMOSA ROSES

FOR 30 CENTS.

NEW TEA ROSE, The White Hermosa, (Marie Lambert.)

This is a lovely white Rose, a pure Tea, but a foreign seedling, the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot Rose. We counted on one plant one hundred and forty-three buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per one hundred buds. Not only will cover twice and three times the space, in a funeral design for instance, that a Carnation covers, but it will give greatly superior results. Try it. Price, 15 cents; large plants, 25 cents.

THE NEW YELLOW HERMOSA ROSE, (Coquette de Lyon.)

No rose like it for freedom of bloom. The plant is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the yellow Hermosa from its free flowering character. We do not know of any Rose that will give the satisfaction that this variety will and we heartily recommend it. Price, 15 cents.

The Old Ever-Blooming Rose, Hermosa.

We believe the Hermosa is the best known in the entire Rose family, and a universal favorite. Hardy as a lilac bush and as free-flowering as the geranium, it combines everything most desirable in a Rose. The flower is cupped, finely formed and full, color the most pleasing shade of pink, soft but deep, and very fragrant. We have a large and fine stock of this standard variety. Price, 10 cents.

TWO BEAUTIFUL NEW ROSES,

BRIDE AND BRIDESMAID,

FOR 25 CENTS.

WHITE TEA ROSE.

THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it become a pinkish-white, at other times a beautiful pure white. Price, 10 cents: large plants, 25 cents.

NEW TEA ROSE,

BRIDESMAD.

Here we have a new Rose, a sport from that old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Mermet. All know that Catherine Mermet takes precedent as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright: and it is the same color all the time under every condition of weather and surroundings. We have a good stock of this valuable Rose, and offer it with confidence. Price, 20 cents each: large two year old, 40 cents.

THREE EXCEPTIONAL AMERICAN ROSES.

New Hybrid Tea Rose,

AMERICAN BEAUTY.

This new Rose, of American introduction, has attained the greatest popularity in the shortest time and created the greatest excitement of any new Rose ever offered in this country, and this without any special attempt to advertise it, the introducers relying on its great value, which is apparent at a glance. It belongs to the hardy hybrid perpetual class, but it blooms almost as constantly as the Teas. There is no doubt but that it is a good Rose for out-door culture. It is a strong, vigorous grower, and a very free bloomer. The buds are extra large, very full and double, and exceedingly sweet. The color is a dark, rich crimson, and most exquisitely shaded. The flowers are very lasting after cutting, keeping fresh and bright from one to three weeks. Price 20 cents each.

The New Hardy Ever-Blooming Rose,
MRS. DEGRAW.

Every one wants a HARDY EVER-BLOOMING ROSE, and when our attention was called to the grand variety shown in the accompanying engraving, we at once took steps to procure it. Following our usual practice, we gave it a thorough trial before offering it, and we are glad to say that it has fully justified the high opinion formed of it when first seen by us. It is with the greatest pleasure, therefore, we announce to our customers that we can confidentially recommend it as being ENTIRELY HARDY, equaling the tender sorts in profusion of bloom. From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest roses; thus it is certain to be unequalled for the garden or cemetery. Note our price for this season: Price, 15 cents each; large size, 25 cents each.

AMERICAN BEAUTY.

NEW ROSE,
"Champion of the World."

THIS is an all around good qualities the greatest Ever-Blooming Rose in cultivation, especially for Winter blooming. It is the champion bloomer. It commences to bloom as soon as potted from the propagating bench, and continues in the greatest profusion all the time, both Summer and Winter. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. It is always in full bloom. Plants which have bloomed all Summer in the garden may be potted in the Autumn, and they will immediately start new growth, and bloom profusely all Winter in any window. The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France, or the best Hybrid Perpetual. Price, 25 cents each.

THE DINSMORE HARDY SET OF NEW ROSES FOR GENERAL PLANTING.

NEW HARDY EVER-BLOOMING ROSE, DINSMORE.

We quote the introducer's description: "For years we have been looking for a variety which had all the desirable qualities of a bedding Rose—that is, one which was of good color, fine form, profuse bloomer, and which would stand the rigor of our Northern Winters without protection; and we can conscientiously say, that until the 'Dinsmore' was produced there was none, to our knowledge, which combined all these qualities. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling, scarlet crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. We have proved the 'Dinsmore' to be entirely hardy, and can recommend it as being the finest garden Rose ever offered. Remember, it is entirely hardy, blooms incessantly, and is one of the most beautiful of all bedding Roses. Price, 20 cts. each; large two year old plants, 40 cts. each.

New Hardy Striped Rose, **Vicks Caprice.**

This grand novelty is a true Hybrid Perpetual Rose, being a sport from the H. P. Rose *Archduchesse d'Autriche*, therefore perfectly hardy. We esteem this one of its greatest advantages, as it may be grown to perfection by the amateur equally as well as by the professional florist. The flowers are large, ground color, soft satiny pink, distinctly striped and dashed with white and carmine. It is beautiful in the bud form, being quite long and pointed, also showing the stripes and markings to great advantage, making it a valuable and desirable variety for cutting. The price at which we offer this wonderful novelty is remarkably low. **Price, 20 cents each; large two year old plants, 40 cents each.**

NEW HARDY ROSE, **Captain Christy.**

The flowers are of magnificent form, very double, and stand erect in their martial bearing. Color a fresh, delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright, satiny appearance. A desirable variety. Certainly the most beautiful of this color we grow. It is a free bloomer. **Price, 20 cents each; large two year old plants, 35 cents each.**

New Yellow Hardy Rose, **Gloire Lyonnaise.**

This grand Rose is the only yellow Hybrid Perpetual we have. It cannot be called deep yellow, but rather a pale shade of chamois or salmon yellow, deepest at center, sometimes passing to rich creamy-white, finely tinted orange and fawn. The flowers have all the beauty of Tea Roses, and are large and full, and delightfully sweet. **Price, 25 cents each; two year old plants, 50 cents each.**

The Beautiful Hardy Ever-Blooming Rose,

"DR. REYMONT."

This fine, hardy, ever-blooming sort was obtained by crossing the well-known General Jacquemont and the Rosa Polyantha, or Multiflora. With such good parentage it is needless to say that the progeny is excellent. It inherits the hardness and splendid crimson colored flowers of the General Jacquemont—which are but little reduced in size—with the profuse blooming qualities of the Polyantha class, thus combining the two qualities most desired in a garden Rose. Bear in mind that this Rose is entirely hardy, ever-blooming and delightfully fragrant. **Price, 15 cents each; large two year old plants, 35 cents each.**

NEW HARDY ROSE, **COMPTE DE PARIS.**

A new Rose of great promise, bright, bright, vivid, poppy-crim-

Flowers are large, semi-globular, full, and of good substance. Color a bright, scarlet crimson, richly shaded with maroon, very fragrant and a free bloomer. **Price, 15 cents each; large two year old plants, 30 cents each.**

NEW HYBRID PERPETUAL ROSE, **Gloire de l'Exposition Bruxelles.**

Flowers finely formed, large and perfectly double. Color bright crimson, of velvety texture. A rose of unusual merit. We are pleased with it. One of the very best new Hybrid Roses of last year's importations. **Price, 20 cents; large two year old plants, 30 cents.**

HARDY ROSES.

PRICE TEN CENTS EACH EXCEPT WHERE NOTED.

WHEN you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called Perpetual, it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. They will grow and thrive as well as the others, but they are not so certain to bloom.

We have a good stock of Hybrid Roses of the larger size. These are Roses for which nurserymen charge from 75 cents to \$1.00 apiece. We have put the price low, and are sure they will give you more satisfaction for the amount expended on them than anything you can buy in the plant line.

OUR BEAUTIFUL NEW MOSS ROSES

RESPECIALLY admired for the beautiful moss covering. Moss Rose is a strong, vigorous grower, perfectly hardy and therefore justly esteemed as very desirable for out-door culture in open ground. Most varieties bloom but once in the season, and usually not in the first year, but the flowers and buds are very handsome, remain in bloom a long time, and are highly prized wherever beautiful Roses are known. They like rich ground, and are much improved in beauty and fragrance by liberal manuring and good cultivation, but they bear hardships and neglect well and bloom profusely. Being difficult and slow of propagation, the price is higher than for other Roses.

Price, except where noted, 20 cents each, six for \$1.00. We have large two-year plants for immediate effect at 35 cents each; three for \$1.00.

ALPHELIUS PURPUREA.

The Famous Mary Washington Hardy Climbing Rose.

This famous old Rose was newly introduced to the public last year. The introducer gives the following interesting account of its origin and history. He says: "It is a historic fact that one hundred years ago George Washington, the greatest and most honored American that ever lived, raised in his garden at Mount Vernon a seedling rose, which proved to be a hardy, perpetual blooming climber, producing large double snow-white blossoms in great profusion from June until frost. In this lovely rose our first President took special delight, and named it after his mother, Mary Washington. The original bush can yet be seen growing in the grounds where its world-famed master planted it in his garden at Mount Vernon. It is a strange thing that this most valuable of all roses has stood a hundred years without ever being propagated or finding its way to the public, yet it is a fact that we are the first to offer, as New, the Old American Rose, the first and finest of its class, and raised and named by him 'who was first in peace, first in war, and first in the hearts of his countrymen.' We may well plant and cherish the rose which our great Washington left us as the truest and best emblem of our remembrance and appreciation of his greatness. We hope in time to see it trailing over the door or gateway of every home in the land, and aside from the fact that this rose was raised and named by George Washington, it is one of the most valuable sorts that has been introduced for many years. A hardy perpetual blooming climber has long been needed. Its flowers are medium sized, pure white, perfectly double to the center, sweet, and borne in endless numbers all Summer. It is a vigorous and rapid grower, and must at once become a general favorite. It makes a great profusion of fine buds, which are borne on long stems and usually in large clusters." **Price, nice strong plants. 15 cents each, two for 25 cents; large two year old plants. 25 cents each.**

HARDY CLIMBING PRAIRIE ROSES.

C LIMBING Roses are valuable for trailing over ornamental arbors, trellises, pillars, verandas, etc., also for covering unsightly objects, as old buildings, fences and walls. In many positions they are objects of rare beauty, and are highly esteemed. The varieties given below are hardy and succeed well in any section of the country. In the South many varieties of the ever-blooming Roses are used as climbers.

Price, 10 cents each; three for 25 cents, your selection. The full set of nine varieties for 60 cents. Large two year plants, 20 cents each; six for \$1.00.

BALTIMORE BELLE.

TENNESSEE BELLE.

The Great Climbing Rose for the South, MARECHAL NEIL.

A rose so famous as to really require no description. Its magnificent golden yellow buds are worn the world over, they illustrate the globular form in its last perfection, and are almost massive in their dimensions. The reports from southern growers tell of single plants

showing one and two thousand blooms of Marechal Neil at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the roses that starts rather slowly, and for that reason the best success will be had with the plants priced at 25 and 50 cents, although one of our customers wrote us from Louisiana that a small ten cent Marshal Neil bought of us in the spring, made strong shoots thirty feet in height by fall. **Price, nice well established plants. 10 cents; larger at 25 and 50 cents.**

THE NEW POLYANTHA.

"JAPANESE OR FAIRY ROSES."

A DELIGHTFULLY unique class of roses. Frequently called Japanese, or Fairy Roses. These Roses are as easily grown as the Chinese or Bengal. In fact, no plant that we know of is of easier cultivation. They are quite dwarf. The foliage of itself is very profuse and beautiful, and above it on long stems rise the branches of bloom, often twenty and thirty in a cluster. The individual flowers are exceedingly pretty, though they vary from the recurved form to the cup-shaped, and their colors are clear and distinct in every case. No better border plant can be found for edging a bed of Roses. As window plants they are unrivaled, being of round, compact form, beautiful in foliage, and unlimited in quantity and continuance of bloom. They are truly ever-blooming, and we wish to recommend them as the best plants for cemetery use that we know, being especially suitable in size, flowering qualities and hardihood, requiring little or no attention after planting. Quite hardy.

Price, 10 cents each; three, your selection, for 25 cents.

LITTLE PET.

As it opens the bud appears of bluish color, but it is soon seen that it is only upon the back of the outer row of petals, the other portion of the Rose being pure white.

MICNONETTE.

A lovely Fairy Rose, full, regular flowers, perfectly double and deliciously perfumed. It color is a clear, delicate rose, with a frequent and peculiar intermingling of white that makes its appearance still more unique and pleasing.

PAQUERETTE.

The flowers are pure white, about one inch in diameter, flowering in clusters of from five to fifty blooms. Very full, prettily formed, recalling blossoms of the double flowering cherry, and fully equals the double white Primrose in profusion of bloom. Very desirable.

BLANCH REBATAL.

The New Crimson Flowering Polyantha.

Plant vigorous, but compact in growth. It blooms constantly and profusely during the whole season, and in color is entirely distinct from all other Polyanthas. It blooms in large clusters, bearing from thirty to forty flowers on each shoot; color deep crimson, flushed with rose.

GEORGE PERNET.

A strong growing dwarf variety, forming a perfect round bush. It is continually in bloom, the flowers being quite large for this class; the color is bright rose with touches of yellow, and passes to peach-blow with silvery-white shadings. Price, 20 cents each.

MADAMOISELLE CECIL BRUNNER.

The flowers are of a salmon-pink, with deep salmon-center, borne in large clusters and deliciously perfumed. Splendid bedder.

MINIATURE.

This is the smallest of all Roses, but perfect form, regular, compact, fairy-like flowers, fully double and very fragrant. Flowers in wreaths and clusters, almost covering the whole plant; color cream rose, flushed peachy red.

PERLE D'OR.

Beautiful light yellowish salmon, deeper in the center, with small white edge. Blooms in clusters, medium size, of fine form and texture, petals are slightly imbricated and overlap each other, giving the flowers a very double appearance.

CLOIRE DES POLYANTHAS.

A beautiful dwarf variety, with quite small flowers, which are prettily cupped. A real "Fairy Rose;" the color is a bright pink, with a red ray through each petal: quite distinct.

Large two year old plants, 20 cents each; six for \$1.00.

MARQUERITE DE LAYRES.

A Selection of the Best New Geraniums

The Superb New Single White Geranium, MARQUERITE DE LAYRES.

We have a most beautiful pure white zonal in this splendid variety. It seems as though Messrs. Bruant and Lemoine were running a race on the single white Geraniums; for in this and the variety La Vestale, of Lemoine, we have two superb varieties for this year. There is little choice between the two, but if anything *La Vestale* perhaps leads for the open ground, whilst *Marguerite de Layres* is the finest pot culture. Price, 15 cents each; two for 25 cents; five for 50 cents; twelve for \$1.00.

Two of the New Geraniums for Massing and General Planting, FIRE BRAND.

Color dazzling flame scarlet, fine prominent truss, flowers large and of great substance, an excellent bedder and pot plant. For planting in masses we have seen none to equal it. Another thing in its favor, it takes fewer plants from its sturdy branching habit to give effect. Price, 10 cents each; three for 25 cents; \$1.00 per doz.; \$6.00 per 100.

WHITE SWAN.

In the White Swan we have one of the finest double white Geraniums ever introduced, and, unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It is a draft, compact-growing variety, with handsome, banded foliage, of healthy green. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless, snowy-white, retaining their pure whiteness even in the heat of Summer. Price, 10 cents each; three for 25 cents; \$1.00 per doz.; \$6.00 per 100.

—THE GOLDEN TRIO. CLOTH OF GOLD.

Artists in color who have for the past two seasons seen it in flower declare it to be of rich, golden orange shade of the most brilliant hue—we need not add another word as to its color. The flowers are of the largest size, most perfectly shaped, in large trusses, opening freely at all seasons. The habit and growth is as free and robust as in any other variety. It is well marked in character and distinctness. Price, 15 cents each.

BED OF GOLD.

Those who have tried such Geraniums as *Progressive* and *Golden Dawn* will find this variety far in advance of all other existing kinds of orange scarlet. It is of a rich, golden orange shade, its large trusses opening freely, the habit being as free and robust as that of any other variety. Price, 15 cents each.

GILDED GOLD.

In this variety we have combined all the qualities that enter into a Geranium of the first order. It is a strong, vigorous grower, profuse bloomer, finely formed trusses of the largest size, borne well above a luxuriant foliage. In color it stands unequalled, being an intense yellowish orange scarlet, though by no means yellow, yet with a decided yellowish cast. Price, 10 cents each.

One Each of the Golden Trio, 30 cents.

THE NEW FRENCH

Peach Blossom

GERANIUM SET.

SOUVENIR DE MIRANDE.

The greatest novelty in new Geraniums that has appeared for a number of years is undoubtedly *Souvenir de Mirande*. It is entirely distinct from any other variety shown, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round florets, upper petals cream white with a distinct rosy-pink border; lower petals salmon-rose, streaked with pure white. A most novel color. It is extremely free flowering, and produces fine trusses of its magnificent blooms. Price 10 cents.

JOAN OF ARC.

Of the *Souv. de Mirande* type; very free flowering, even more so than *Mirande*. Color very distinct and attractive, being a bright orange red, the two upper petals blotched and feathered pure white to more than half their length. Price, 15 cents.

M. V. NOULENS.

May be described as a scarlet *Mirande*. It is a magnificent variety of large size, and of the most brilliant combination of clear white with scarlet border. Price, 15 cents each.

SET OF THREE

Peach Blossom Geraniums
FOR 30 CENTS.

JOAN OF ARC.

THE GREATEST OF ALL GERANIUMS, BRUANT.

The Giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant rebounds in vigor; foliage strong, striking and of perfect habit. Color of the flower is a bright vermilion red of most pleasing shade. The flowers are absolutely perfect in shape, color and make-up; trusses exceptionally large, and born in immense spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. It is of the semi-double type, the most striking of all, only the double form takes place near the base of the petals, allowing them free development, and at the same time showing the semi-double type. It embodies all the advantages of both types, the perfect development and free blooming qualities of the singles, the fullness and beauty of the doubles, without their great fault of having the florets damp and drop off and become unsightly when planted outside. We have an immense stock of this variety. Try a dozen or more of this beautiful Geranium in a bed or clump, and it will delight you the Summer through with its handsome foliage and pleasing color.

Price, 10 cents each; three for 25 cents; twelve for \$1.00; one hundred for \$6.00.

MONTESQUIN.

THE FINEST DOUBLE WHITE FOR BEDDING OR CEMETERY PLANTING,

La Favorite

IN THIS NEW GERANIUM, introduced last year, we believe we have the finest double white Geranium in cultivation. The Single Geraniums are valuable for bedding, and present a beautiful effect in massing, but cannot be used for cut flowers on account of the petals falling. On the other hand, most of the double varieties of Geraniums are useful for cut flowers. In La Favorite we have a pure, double, white Geranium, as free-flowering as the single varieties, and which can be used for planting in beds, for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for Winter forcing. It is a dwarf, compact-growing variety, the foliage is a bright, healthy green, with a band of darker green encircling each leaf. The flowers are borne in large trusses, of the purest snow-white, retains this pure whiteness even in the height of Summer, and for Winter blooming is all that can be desired. While "White Swan" is a beautiful variety, yet La Favorite is quite in advance of it. Do not fail to add this charming variety to your collection.

Price, 10 cents each; or \$1.00 per dozen; \$6.00 per hundred.

Six Novelties for the Year in SINGLE GERANIUMS.

M. POIRIER.

Another magnificent variety that received a first-class certificate at the Royal Horticultural Society. Trusses of enormous size, beautiful carmine violet color, upper petals marked with rich violet; an exceedingly free blooming variety.

ATHLETE.

Flowers large and round, trusses of enormous size, color the most brilliant clear scarlet, being still brighter than "Universe." A grand new variety.

LA VESTALE.

Here we have the long-looked-for pure white that does not tinge in our hot suns. We have given this an extended trial the past few months, and we unhesitatingly recommend this variety. It has large trusses of snow-white.

MRS. E. C. HILL.

A most distinct and pleasing shade of salmon, with light shading at the center; trusses are very large and composed of an immense number of florets. The finest salmon-flavored Geranium to date.

M. ALFRED MAME.

OSTRICH PLUME CHRYSANTHEMUM.

THE FAMOUS

OSTRICH PLUME SET!

THE NEW PURE WHITE, SWEET-SCENTED

**OSTRICH PLUME CHRYSANTHEMUM,
MISS ANNIE MANDA.**

Flower very high and compact, perfectly double, incurved, of the purest white. The numerous petals are well furnished with long, glandular hair-like out-growths, giving the flower a unique appearance, far surpassing the celebrated Mrs. Alpheus Hardy. The plant is of a strong and vigorous habit, carrying the flower erect on a stout stem. Another recommendation is that the flower is sweet scented. Price, 20 cents each.

WM. FALCONER.

The color is an exquisite shade of rosy blush, changing to a delicate flesh pink, as the flowers advance in age. The delicacy of tinting is without a parallel in any class of flowers within our knowledge. The soft feathery growth peculiar to the "Ostrich Plume" class is even more pronounced than in any of its predecessors, and in this variety it has an additional charm. The growth referred to is usually a shade lighter than the body of the flower—the effect produced being as if a soft tinted lace-like web or veil was thrown over the blooms, a unique and beautiful addition to its appearance. 20 cents.

The New Yellow-Golden Ostrich Plume Chrysanthemum,
W. A. MANDA.

The first Ostrich Plume variety of this color. The flowers are very large, of a clear golden yellow—the heavy growth being much more fully developed than in the older varieties of this type. It is also a much better pot or specimen plant, having a number of flowers on the smallest plants. The plant is of vigorous growth, and the flowers are borne upright on a stout stem. 15 cents.

"LOUIS BÆHMER."

The "Louis Bæhmer" has the same wonderful hair-like growth or excrescences that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, being a most beautiful shade of lavender pink, shaded with silvery pink on the end of the petals. The flowers are splendidly incurved, the inside of the petals are deep rose, so that the contrast between their inner and outer surfaces is very decided, and adds greatly to the appearance of the flowers. Price, 15 cents.

MRS. ALPHEUS HARDY.

No other Chrysanthemum has created a sensation wherever shown as has this most wonderful variety. The flowers are very large, of thick substance, perfect shape, and belong to the incurved Japanese section, while the color is of the purest white. THREE NEW ACHILLEAS.

New Achillea Alba,

THE PEARL.

THE
Great Cemetery Plant.

WE TAKE much pleasure in calling special attention to this new plant, as it is one of the most beautiful and useful. It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds, and even thousands of flowers the first Summer, but when established the second year they frequently have more than five hundred perfect flowers on a plant at the same time. It commences to bloom early in July, is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorations. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its great profusion of snow-white flowers nearly the whole Summer for years and years. The plants we supply will have abundance of roots, with but little top. They will all grow rapidly, and produce abundance of bloom this Summer. They can either be potted or planted in the open ground as soon as received. Price, 15 cents each; two for 25 cents; \$1.00 per dozen.

ACHILLEA RUBRUM

ACHILLEA TOMENTOSA

New Rose-Colored Achillea, Millefolium Rubrum.

This beautiful new Achillea has large fronds or leaves of the most fern-like appearance, that for foliage alone would be worthy of a place in any garden. But then it produces large clusters of flowers a deep lake-rose color, making it wonderfully attractive when planted among shrubbery or rose beds, giving all a graceful effect. Price, 15 cents each.

NEW YELLOW ACHILLEA, TOMENTOSA.

A charming hardy plant for border of beds or edgings for walks. Soft, mossy green foliage with pretty yellow flower heads that remain a long time in perfect color. It makes an excellent Spring flower for cutting. No garden is complete without this fine yellow hardy plant. Price, 15 cents each.

These three new Achilleas
for 30 cents.

ACHANIA MALVAVISCUS, Bishop's Mitre.

From the time it is three or four inches in height, the Achania blooms, but its best showing is usually in Winter. Certainly nothing could be more accommodating to habit, for the plant is always healthy, grows to a great size in time, and blooms very freely. The brilliant scarlet flowers are upright, peculiarly formed and carried upon the extreme ends of the branches. Price, 10 cents each; large plants, 25 cents each.

ACHANIA MALVAVISCUS (BISHOP'S MITRE.)

**ANTHEMIS CORONARIA SUPERBA.**

NEW DOUBLE GOLDEN MARGUERITE, *Anthemis Coronaria Superba fl. pl.*

The engraving gives a fair idea of this most beautiful plant. Nothing could be more showy, either as a pot plant or bedded out. Well-grown plants have as many as one hundred and fifty flowers on them at once. Price. 15 cents each; 2 for 25c.

Asparagus Tenuissimus.

We cannot too highly praise this beautiful new plant. If so desired, it can be grown like a Smilax or on a trellis. Its fine filmy foliage is indispensable in bouquets, and will keep for several days after being cut, without wilting or changing color. It is also very desirable for decorating, along with other plants, when grown as specimen plants or in pots. It is of the easiest culture and will thrive with almost any kind of treatment. Price. 10 cents.

It belongs to the same family as the well-known "Lady's Cigar Plant," but is vastly superior in every way. NIGHT-BLOOMING JASMINE (Cestrum Parqui.)

CYCLAMEN GIGANTEUM.

CYCLAMEN, Or PERSIAN VIOLET.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blossoms freely and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mould and silver sand. Put in pots three times the diameter of the bulb, in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cool weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature.

CYCLAMEN, PERSICUM.

The colors are usually white and red, tipped at the base with rosy purple. Small bulbs, 10 cents each; large bulbs, 25 cents each.

CYCLAMEN, PERSICUM GIGANTEUM.

This is a decided improvement over the old variety, being of a more robust habit and stronger grower. Produces flowers on short, stout stems and of immense size, often measuring on well grown bulbs two inches in diameter. The foliage is also beautiful. Price, good bulbs, 25 cents each; five for \$1.00.

ACALYPHA.

THIS IS ONE of the brightest foliage plants we have. It is of easy culture. When growing it should have plenty of water. Price, 15 cents each; three for 25 cents.

ACHYRANTHUS.

Indispensable for bedding purposes, either in masses or ribboning, their brilliant tinted leaves forming a marked contrast with all other plants, being much harder than Coleus. They are sometimes considered preferable for massing and ribbon lines. Price, 10 cents each; three for 25 cents; set of five varieties for 35 cents.

THE CILT-EDGED CANNA, MADAME CROZY.

Undoubtedly the grandest of all varieties. The color is a brilliant vermillion scarlet, bordered with deep golden yellow; the flowers are borne in great clusters and in such profusion that they crown the plant with a blaze of glowing color. The foliage is vivid green, broad and massive; the habit of the plant is compact and vigorous, its natural height being rarely more than four feet, but the flowers form when it is scarcely a foot high, and continue coming on the plants until frost. Price, 15 cents.

The full set of these French Novelities for \$1.00.

TWO NEW * * * * IMPATIENS.

THE QUEEN—A delicate shell-pink tinted salmon, with a silver sheen; very large flower. This is the most distinct variety that has yet been produced. The continuous blooming qualities of this class of plants makes them indispensable for either house or garden decoration, and these two varieties are a garden within themselves. Price, 15 cents.

ROYALTY—This is the most distinct and beautiful of all flowering plants of recent introduction, either as a Winter blooming pot plant or for the border in Summer. It is of a compact, neat habit of growth, with good constitution and a perpetual bloomer. The flowers are of a brilliant rose-scarlet color, of a peculiarly distinct but most effective hue, about one and one-half inches in diameter, and are produced singly or in twos and threes from the axils of the leaves, especially towards the summit of the stems, but so freely that a well-grown specimen appears to be quite a ball of fire. Price, 15 cents each.

Caladium Esculentum—Elephant's Ear.

Very effective and suitable for either a single plant on the lawn, masses in beds, or margins of water. Its very distinct leaves often attain the length of three feet, by twenty inches wide, and have a rich, tropical effect. The growth is very rapid, and the ground must be made rich. Watering in dry seasons will help develop large leaves. Bulbs can be stored in dry sand in Winter and kept from year to year. Price, 15 and 25 cents each.

It has every qualification to recommend it, size, freedom of bloom, and constitution.

**PHENOMENAL.**

NEW GIANT FUCHSIA,
* * * **PHENOMENAL.**

The largest flowered Fuchsia in cultivation. This new sort from its strong growth and enormous flowers created such a sensation last year that the demand far exceeded our supply of it. This year we have propagated a large stock and hope to fill all orders. The plant is a tall grower, branching like a tree; the leaves are dark, glossy green, with veins of dark crimson, giving the foliage a rich, ornamental appearance. The flowers are of enormous size, a single flower measuring three and a half inches across; sepals bright scarlet, with rich violet purple corolla, very double. Price, 15 cts. each.

THE GREAT
SINGLE FUCHSIA, * * *
MONS. THIBAUT.

A splendid variety, with large, handsome foliage of a delightful green tint, the foliage alone would make it worthy of cultivation. The flowers are single, of unusual size, sepals dark red; corolla rose vermillion, tinted violet. 10 cts.

This trio of Phenomenal Fuchsias for 30 cents.

A RARE OLD FUCHSIA, FULGENS.

This grand old Fuchsia has been so long neglected that most flower lovers are not aware of its existence. Who ever heard of a Fuchsia having leaves over six inches long, and flowers from four to five inches long, with tuberous roots like a dahlia. This beautiful variety was introduced from South America in 1837, and we are indebted to it, more than any other variety, for the many beautiful varieties we now have, as they were originally produced by hybridizing it with other species. It is of the easiest culture, requiring the same treatment as other fuchsias. No plant will attract more attention than a well-grown specimen of Fuchsia Fulgens. Its clusters of long, drooping, tube-like, brilliant flowers, and very large, green, foliage, gives it a most striking and beautiful appearance. The flowers are four inches or more in length; tube and sepals bright rose; corolla brilliant carmine. It blooms quite freely, plants in two-inch pots, frequently producing flowers; but large, well-established plants will bloom more freely and produce larger clusters. Having tuberous roots it is easily kept over winter by storing the roots under the bench in the greenhouse or in a cellar, where they will not freeze. 25 cts.

NEW DOUBLE WHITE FUCHSIA--WHITE GIANT.

One of the largest and best white Fuchsias grown. Fine force, very double. Color a pure white. This is a better grower than "Storm King," and superior to the variety, or in fact, any of the white Fuchsias. We find it to be an excellent winter bloomer. It gives us much pleasure to offer this grand Fuchsia. Price, 15 cents.

NEW DOUBLE FUCHSIA--JUPITER.

All lovers of this beautiful class of plants will be pleased to note the addition of another variety of Fuchsia that produce such wonderful large flowers as phenomenal. Jupiter is a sport from that variety, and is similar to it in every respect, except in the coloring of the corolla, which is a beautiful shade of light magenta, with dark crimson veins. 15 cents. These three wonderful Fuchsias for 50 cents.

BLAND'S NEW : STRIPED.

The tube and sepals a glowing crimson, corolla a rich plum-colored purple, regularly and distinctly striped red rose.

THE CURIOUS AIR PLANT; BRYOPHYLLUM CALYGINUM.

A beautiful and strange plant, with thick, heavy leaves, which, if cut and laid on moist soil or sand, little plants will grow from the notches all around the leaf. They grow very thickly to a considerable size, and make a healthy and beautiful looking plant. When in bloom it presents successively two distinct aspects: first, when the calyx develops itself—membranous, inflated, smooth as silk, cylindrical, round at either end, of a pea-green color, streaked with red, increasing in size until it becomes two inches in length. The flowers, borne upon slight pedicels, droop directly downwards, and are swayed by every breath of air like so many Chinese lanterns. It is impossible to describe the lovely tint of the leaves, which are also very prettily scalloped. A plant all can grow. Price, 15 cents each.

BRYOPHYLLUM CALYGINUM.

* A PAGE OF CALLAS. *

New Miniature Calla, LITTLE GEM.

LITTLE GEM.

This beautiful little floral gem originated in the Guernsey Islands and is one of the finest novelties offered in years. It is in appearance a true miniature specimen of the old Calla; rarely ever growing over ten to twelve inches high and commences to bloom when six to eight inches. It blooms very much more freely than the old Calla, in fact, continues to flower nearly the whole year. One of our correspondents from California writes us: "On my grounds, where it has been growing for the past two years in rich, moist ground, where the common Calla grows to the height of three feet, the Little Gem has never attained a greater height than ten to fifteen inches, and is almost constantly in bloom. Price, 25 cents."

CALLA LILY.

(*Richardia Ethioptica*.) One of the best known plants, and of easy management, if the point is observed that the bulbs must be matured by being "rested" without water during the Summer; when repotted, in Fall, in good soil, they will make rapid growth and bloom finely. Small plants, 10 cents; large plants, 15 and 25 cents.

CALLA RICHARDIA MACULATA.

Calla Richardia Maculata, Spotted Calla.

The Richardia Alba Maculata, or Spotted Calla is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white; the flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 25 cents, for fine, large flowering bulbs.

EVER-BLOOMING * CALLA.

It is of a dwarf habit and does not grow tall and scraggly like the old variety, but is strong and compact, with a great abundance of lustrous dark green foliage. It is a true ever-bloomer, its flowers appearing in great abundance both Summer and Winter when grown in pots, or it will bloom profusely all Summer long in the open ground, and being potted in September will continue blooming without intermission all Winter. The same plant will grow and bloom for years without once ceasing, and the quantity of bloom which a good plant will produce is astonishing. It is estimated that six plants of the old sort will not produce so many flowers in the course of a year as will one plant of the new dwarf variety. A large plant is hardly ever without one or more flowers, and its dwarf, compact habit makes it a much more desirable pot plant than the old variety. Its flowers are of large size and snowy white in color. THE LOVELY CLIMBING MOUNTAIN ROSE,

ANTIGNON LEPTOPHUS.

A climber from New Mexico, with beautiful rose-colored flowers in racemes two feet long. The profusion of bloom is such as to give the resemblance of roses at a distance, hence the Mexican name, "Rosa de Montana," or Mountain Rose. Described by its discoverer as the most beautiful climber he had ever beheld. Moderately hardy with protection. The vines are killed to the ground by frost, but it quickly shoots up in the spring and develops its flowers from June till frost. 25 cents.

From the center of the flower springs a spike ten inches long, of the most intense glossy black. The leaves are very handsome, resembling a small palm. The whole appearance of the plant is stately and elegant in the extreme—the colors of the flower stamping it as one of the most wonderful productions of nature. Nice, flowery bulbs, 25 cents each.

Extra large 50 cents.

HIBISCUS.

LARGE GROWING tropical plants, with very glossy foliage. The plants, under the hottest sun, produce enormous flowers, in great numbers, and make noble specimens. They can be grown in tubs and kept for years. The blossoms average five or six inches in diameter, and are gorgeously colored. A very good way to make them bloom freely, and to facilitate the lifting in the Fall, is to transplant each plant into a pot two or three sizes larger than it has grown in, then plunge the pot altogether in the ground, the soil to cover the surface one or two inches. Then in the Fall the plant can be lifted without injury. **Price, fine strong plants, 10 cents.**

THE ORCHID HYACINTH.

(Pontedera Crassipes.)

A Most Odd, Beautiful and Valuable Plant of Easy Growth.

This is undoubtedly the plant of all water plants for the masses, not only on account of its uniqueness and great beauty, but the limited amount of space it occupies and the perfect ease with which it is grown. It floats on the water by means of its curiously inflated leaf stalks, which resemble bladders or balloons filled with air. A mass of beautiful feathery, blue roots grow downward in the water. It forms a lovely rosette of its curious, shining green leaves, and throws up spikes of the most exquisite flowers imaginable, resembling in form a spike of Hyacinth bloom, but as beautiful as many of the choicest and most costly Orchids. Each flower is as large or larger than a silver dollar, in color a beautiful soft lilac rose, sparkling as if covered with diamond dust. The upper petal, which is the largest, has a metallic blue blotch in the center, and in the center of that a small, deep golden-yellow spot. Our cut conveys no idea of the beauty of the spike of flowers which is often six or eight inches in length and three inches in diameter. Can be grown in the open air in summer and in the window in winter in anything which will hold water. In the window the most beautiful effect is produced by using a glass vessel of some sort, with shells and white sand so arranged in the bottom as to conceal a small amount of soil. In summer it can be grown in the yard in a pool or tub of soil and water, and will bloom most profusely.

Price, 25 cents each; five for \$1.

A PAGE OF MOONFLOWERS

THE NEW HARDY
MOONFLOWER.

**IPOMOEA
PANDURATA.**

THE HARDY DAY-BLOOMING MOONFLOWER, **IPOMOEA PANDURATA.**

This is one of the most rampant-growing vines in cultivation, having a large tuberous root that is perfectly hardy in Minnesota and Canada. The flowers, which are very large, are a pure satiny-white, with a pinkish-purple throat, shading off deeper in the tube. The flowers are usually four inches in diameter—sometimes attain a diameter of five or even six inches. They are produced in large clusters and in the greatest profusion from June to October. A strong plant will give more than one thousand beautiful flowers daily, for months at a time, being well distributed over the plant from near the base to the top, forming usually one of the grandest floral displays ever seen in any country.

THE ROOT penetrates the earth so deep that it is not seriously affected by drouth or other unfavorable weather condition. Price, 20 cents each; three for 50 cents.

The True Moonflower, **IPOMOEA GRANDIFLOWER.**

This plant has become very popular, and it certainly is a wonderful annual climber. It grows rapidly and blooms profusely. Flowers five inches in diameter, and quite fragrant. A very rapid Summer climber, blooming the first season. No insects attack the leaf, and even if it did not bloom it would be very desirable because of the beauty of its foliage; but when is added to this the wonderful effect of its flowers, which are borne in great profusion, it can not fail to please. The flowers are immense, pure white, sweet scented, five inches in diameter, borne very profusely, and, as they open at night, are very striking. Being a free bloomer, the effect on a moonlight night is charming. It is a splendid plant for verandas. Try it. Price, 10 cents each; 75 cents per dozen.

The Variegated Leaf, **MOONFLOWER.**

The foliage is beautifully marked clear white and vivid green, the flowers are identical with the famous Moonflower, so that in beauty of flower and foliage it is without a rival. As it is not hardy, slips (or cutting-) should be taken from it in the Fall and started in small pots, when they will make fine vines for climbing around the window in a sitting-room; trained to wires, strings or wooden trellis in the open ground, it will make a most attractive appearance even when out of bloom. Price, 20 cents each; three for 50 cents.

THE SATIN, or Tuberous-Rooted Moonflower, **Ipomoea Mexicana.**

This is unlike all others, as it blooms during the day time and has a strong tuberous root, like a Dahlia, which can be wintered in a cellar. Its leaves are also beautifully divided. The flowers are of a violet-crimson color, and look like a piece of rich satin. It is very rapid in growth, the tubes giving it an early and young start, which makes it season of usefulness the longest of any climber of its class. Price, 20 cents each; three for 50 cents.

THE BLUE MOONFLOWER, **Ipomoea Learii.**

From Ceylon. A handsome, quick growing, perennial climber. Often flowers in bunches of a half dozen; the individual flowers are trumpet-shaped, about four inches across, of a rich violet blue, with five purple rays. Grows about twenty-five feet in one season, and is a most attractive climber. Price, 15 cents each; two for 25 cents.

THIS PAGE OF MOONFLOWERS FOR 75 CENTS.

**FICUS PARCELLII.**

A New variety of the Rubber Tree, beautifully variegated, white, yellow, green blotched, and marked. The illustration can give but a faint idea of its beauty. Few plants are so much adapted for home culture as the Rubber, and this variety is so strikingly handsome. Being difficult of propagation, it is necessarily high priced, but once bought each year gives you greater satisfaction. Nice plants, **25 cents**; large size, **50 cents** and **\$1**.

**GREVILLEA.**

Grevillea Robusta (The Silk Oak). A magnificent plant for decorative purposes, of rapid, easy growth, finely cut foliage, rivaling a rare fern. The young growing leaves are a light bronze color, the tips being covered with a soft down, closely resembling raw silk, hence the name of "Silk Oak." In its native place it attains magnificent proportions and produces an abundance of bright, orange-colored flowers. Fine plants, **25 cents**; large extra plants, **50 cents**.

Clerodendron Balfouri.

A Lovely Semi-climbing Plant. It is Now First Popularly Introduced. Will Last for Years.

It is difficult to imagine a more lovely floral object than *Clerodendron Balfouri*. Plants in almost any stage of growth, almost invariably attract the instant attention of visitors to your establishment. Rare and distinctly beautiful plants are now so much sought after, that we predict an enormous popularity for this superb variety, which is unquestionably the best and most showy of all the *Clerodendron* shown in our illustration was grown in a 6-inch pot, trained on a trellis, about 20 inches high. It can, however, be grown in three different ways, as shown in our illustration; also by pinching, it can be grown, shrub-like, without support, 1 to 2 feet high, and proportionately broad; also trained about windows, it will run 6 to 8 feet. The flowers are born in elegant profusion, and are beautiful and distinct. For a description of the form and habit of flowers, we can not do better than refer to our illustration; the outside petals are pearly white, and in high contrast: the inserted stamens. This grand *Clerodendron* is a very vigorous, healthy and rapid grower, and is as easily managed as any *Fuchsia*; it is practically a summer flowering and winter flowering plant, requiring only a short rest between seasons, and can be used as a fine specimen pot plant for the veranda or some conspicuous place during summer, and after a short season of rest in the cellar can be placed in window garden, where it will be Queen of the winter flowers. Requires about the same treatment and temperature as a *Fuchsia*, but is much more vigorous and easier grown. We offer a superb stock of well-grown clean plants, which we are positive can not be equaled anywhere. That it might come within the reach of all, we offer them this year at **10 cents each; 3 for 25 cents**.

**CLERODENDRON BALFOURI.**

THE NEW * * *

. . . **Datura Cornucopia.**

"HORN OF PLENTY."

IN THE wilds of South America, the past year, an old and experienced collector of Orchids came upon a floral gem which, while out of his usual line, impressed him so much with its beauty, magnificence and striking appearance, that he secured all the obtainable stock and sent it to us for introduction in this country. The singular form, gigantic size, striking colors, and pleasant odor of the flower make this novelty most conspicuous. We have grown it at our nurseries during the past summer, where it has been seen by many of the leading seedsmen and florists of this country and Europe, and considered the most desirable novelty of recent years.

The plant is of a very robust habit. The stem is thick, dark brown-purple, shining as if varnished. The branches are very numerous, spreading symmetrically three or four feet in every direction. The leaves are large, of a dark green color.

The flowers are trumpet-shaped, measuring eight to ten inches in

length and five to seven inches across the mouth, and form three distinct flowers growing each within the other, the throat and mouth of corolla a most delicate French white, beautifully contrasted and marbled with royal purple on the outside. They are produced in great abundance, a single plant giving easily from 200 to 300 fragrant blooms during the season, followed by a large thorny seed-vessel, which adds to the beauty of the plant.

This novelty is of the easiest culture, requiring to be planted at the end of May, in a warm, rich soil. It can be cultivated as an isolated specimen, in masses, for centers of beds, or to fill barren places. In either case it produces a striking effect.

Visitors to the world's fair may remember to have seen a beautiful bed of this novelty on the wooded island. We make the price so low that every one may have a bed of them to delight them all summer. **Price. 25 cents each; 3 for 50 cents; 7 for \$1.00.**

NEW RED BRANCHED

We consider this variety the most elegant *Hydrangea* for pot culture or for tubs grown. It is much handsomer than *Otaksa*, the foliage being darker green, with black stems, making it very distinct. Flowers rosy carmine, changing to blue, the dark green foliage and purple black stems being in contrast with rosy carmine flowers. Price, **20 cents.**

BRAZILIAN PLUME PLANT,

(JUSTICEA SANGUINEA.)

* * * * *

This plant is a native of Brazil and of the easiest possible culture, and seems to do equally well in all kinds of soil, and in any situation, requiring but very little attention; it is, in fact, one of the few plants that every one can grow successfully. It is a strong, rapid grower, and throws long shoots, each of which is tipped with the beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. In appearance the blossoms resemble somewhat a mammoth pink chrysanthemum, but are three or four times as large, and the petals broader and of a different formation. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. Even if it had no blossoms it would be a most valuable novelty as a foliage plant, the leaves being quite large and of a rich dark green color, and exceedingly attractive. As a center plant for jardiniere it is certainly unsurpassed, and we know of no finer plant for the window, as it is of such easy culture that it will succeed where many other plants will fail. Price, 20 cents each; 3 for 50 cents.

The Beautiful

PASSIFLORA INCARNATA.

The most beautiful of all Passifloras, having large flowers, borne profusely at all times, even on very small vines not over one to two feet. The numerous stamens are dark blue, with two or three rings of white near the base, below which is a dark brown color. It is difficult to imagine a more lovely flower. (See illustration.) Strong clumps, out-door grown. 25 cents.

Passiflora Constance Elliott.

(Hardy White.) This will become a very popular climbing plant. Like *Cerulea*, it will live from year to year in the open ground when well protected in Winter by mulching. The flowers are pure white, excepting a very slight coloring at the base of the corolla. Price, 15 cents; large clumps, 25 cents.

New Golden Spotted Passiflora, "John Spaulding."

The beautiful novelty now offered for the first time is a "sport" from the well-known "Constance Elliott." It originated with the gentleman whose name it bears, and we were fortunate in procuring some of the stock. It inherits the hardiness, freedom of growth and exquisite pure white, fragrant flowers of the parent variety, with the added beauty of foliage beautifully marked with bright golden yellow. Price, 15 cents; large clumps, 25 cents.

Passiflora Incarnata.

New Otaheite * *

* * Dwarf Orange.

Among the new varieties of oranges that have been recently introduced from Japan and other countries, there is one dwarf tree-flowering variety, which is suitable for pot culture, and which with anyone, prove one of the most desirable pot plants it is possible to possess. We refer to the Japanese Otaheite. While it will grow three or four feet high and branch freely, it is not an uncommon thing to see little cutting plants five or six inches in height full of bloom, and even bearing one or two medium-sized oranges. The fruit at their best are not more than half the size of an ordinary orange, but are very bright and beautiful in color and delicious in quality, but it is for its flowers more than its fruit which commends it to general cultivation. When it blooms it is so full that it seems to be all flowers. The pure waxy white blossoms emit a delicate yet powerful fragrance, which is surpassed by no other flower. Price, small plants, 15 cents; Large, 25 cents; Extra large, 50 cents.

The Trifoliate Orange.

This new hardy orange delights all who like beautiful and novel hardy plants. An Orange Tree growing vigorously on the lawn or in the garden, blooming and fruiting in abundance, is certainly a rare sight. The beautiful little trees are entirely hardy in the open ground as far north as Boston. They are of dwarf, symmetrical growth, with glossy-green trifoliate leaves. The lovely pure white orange blossoms are elegantly perfumed, and borne in constant succession. The fruit is small, bright red in color, and very curious. Price, 20 cents.

SMILAX.

This very great climber is a great addition to our basket plants, possessing the rare qualities of delicate and tolerably dense foliage, and vining habit, admirably adapting it to clinging or drooping, as may be required. For using as a green with cut flowers it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. Price, 10 cents; 3 for 25 cents.

HELIANTHUS MULTIFLORUS.

HELIANTHUS MULTIFLORUS, . . . The Double Golden Sunflower.

A double perennial "Sunflower." It is a great addition to our hardy herbaceous plants. Its dark golden-yellow color is both fashionable and beautiful for cut flowers, and planted singly or in clumps on the lawn it gives a splendid effect. The plant grows about three to four feet high, bearing numerous large golden heads of flowers as large as Dahlias, and continuing in bloom until frost, and will be much prized as corsage flowers. Give it a trial and you will be surprised and delighted to find how beautiful it is—never needs to be replaced, as it is a hardy perennial, coming up every year. Price, 10 cents each; 3 for 25 cents.

In mild localities it is covered during the late Summer months with hundreds of clusters of large, lavender-blue, Wistaria-like flowers, brightly set off with golden stamens, each cluster measuring 15 inches in circumference, and often attaining a length of 12 inches. The flowers are succeeded by bright scarlet berries, remaining perfect for a long time. It is the most beautiful flowering vine that we have seen. HARDY IRIS KAEMPFERI.

The newer varieties of this King of Iris, recently introduced from Japan, are marvels of beauty and staidness. Think of a plant sending up to the height of three feet a dozen flower spikes, each spike bearing from two to four enormous blossoms eight or ten inches across, and of the most delicate and beautiful colors, markings and combinations. Think of a bed of all colors, white, indigo, violet, lavender, mauve, sky-blue, royal purple, blue, yellow, etc. Your imagination can conceive of nothing grander, and when you see them you will realize that they are infinitely more grand and beautiful than your imagination could portray. Such are these new Iris Kaempferi, the king of hardy perennial plants. Once planted in your garden, they are a joy for a life-time without further care, blooming profusely in June and July, during which time they are the greatest attraction your garden or lawn contain. Price, 20 cents each; three distinct kinds for 50 cents.

SELECT LIST OF CHOICE FLOWER SEEDS.

FRESH, AND TRUE TO NAME.

WE HAVE exercised the greatest care in selecting our seeds, knowing that our future success largely depends on the quality of seeds we send out. The greater part of the flower seed we offer are grown for us by one of the most extensive and popular seedsmen in Germany, while some of them are grown on our own grounds.

Our customers can rely upon getting those of the very best quality and finest strain, as we use the utmost caution to send out nothing but first-class, fresh and true to name. Our packet contains a sufficient quantity for ordinary purposes. Our prices will be found remarkably low—much lower than the same quality can be bought for elsewhere—and our list contains nearly all the choice kinds in cultivation.

FLOWER SEEDS ARE CLASSED IN THREE CLASSES, AS FOLLOWS:

HARDY ANNUALS.—This class includes all the varieties that may be sown in the open ground and will bloom and mature seed the first season.

HALF-HARDY ANNUALS are those varieties that flower and mature seed in the open air, but need to be started in a greenhouse, hot-bed or sunny window.

BIENNIALS AND PERENNIALS.—Biennials are those varieties that do not usually bloom the first season, but are only in perfection the second season. Perennials continue to flower for several seasons. Many of these may be sown and treated the same as Hardy Annuals, but the more tender varieties should be sown as directed for Half-Hardy Annuals.

LIBERAL PREMIUMS.

In every neighborhood there are persons whose limited means forbid as heavy an outlay in seeds, etc., as they would wish, and who would be glad of an opportunity to get what they desire by making a little effort in obtaining the orders of a few neighbors and thereby securing their own seeds free.

OUR POPULAR

\$1.00 = MAIL COLLECTIONS = \$1.00

ENTIRELY OUR SELECTION OF VARIETIES.

ALL LABELED. BY MAIL.

These Collections are Not Entitled to Premiums.

The choice of varieties in these sets must be left entirely to us, as we positively can not afford, at the collection price, to permit customers to name the plants. But all who prefer their own selection of varieties can make them at the prices of single plants, which in all cases accompany the descriptions. The selections are subject to the following conditions: That persons ordering are only to name the number or numbers, designating the collection or collections wanted, as it takes too much valuable time to read long letters giving detailed lists of plants in each collection desired. Simply the number of collection is all-sufficient.

THE BARRETT PUBLISHING CO., SPRINGFIELD, O.

"DRACÆNA INDIVISA."

One of the most popular plants for house decoration or for the centre of lawn vases. As a single specimen plant for a jardiniere in a hall or drawing-room, it has no equal. It is more graceful than a Palm, and because of its slender drooping leaves is often called a "Fountain Plant." The leaves are of several shades of green, with delicate stripings of yellow and red, which become more marked as the plants grows older. It grows rapidly, is adapted to the close atmosphere of the house, and is very inexpensive.

We offer two sizes of this desirable plant; large size, 50c.; small size, 25c.
